Forthcoming Meetings

Mon 8th January 2007 – An introduction to Yoga by Steve G3WZK

Mon 12th February - The work of the RSGB EMC committee by G3YCR

Mon 12th March - Society equipment familiarization evening

CATS is Twinned with the
Crescenta Valley Radio Club
Glendale California USA www.qsl.net/cvrc

AGM Report

The December meeting was given over to the Annual General Meeting. 17 members attended. A brief overview of the meeting and salient points is given here, a full set of minutes will be available separately.

The meeting commenced at 21.15 with the Chairman's opening address during which he gave his view of the society's year. The next item should have been the reading and acceptance of the 2005 AGM minutes, however these were not available despite the best efforts of the committee. This was followed by the Secretary's report that went into more detail about the activities over the year, sprinkled with some hard facts and figures.

The Treasurer next made his report and presented the audited accounts for the society. These showed that financially the society is in good health due mainly to our various fund-raising activities throughout the year. The accounts were accepted by the members present and the meeting voted to re-appoint Derek Garrod as auditor for the coming year's accounts.

The formal announcement of the subscription rate for 2007 was made – it remains at £10 with a 50% reduction for those members over 65.

The next item was a proposal to adopt a revised constitution and rules of the society. All members had been circulated with the draft document and the secretary gave a statement of the reasons behind the changes and additions. A brief discussion was held during which an ambiguity was pointed out. With this minor amendment, the new rules received a unanimous acceptance.

The election for the 2007 committee provided few surprises. G8JAC was re-elected as secretary (and newsletter editor) and Derek G1PGS retained the post of Treasurer. All of the existing committee with the exception of G8VXB offered themselves for re-election. The vacancy was filled by Len G0GNQ who was welcomed back onto the committee after a year's absence.

A tea break was then called during which members enjoyed a bit of festive cheer with hot mince pies and wine being served alongside the usual fare. When the meeting re-convened, the result of the committee vote for Chairman was announced with Steve G7SYO taking on the post for the coming year.

After tea, a more general discussion ensued with some suggestions for activities and projects in 2007. After a useful session the meeting closed at 21.25.

Our thanks are due to the members who made the effort to attend the AGM.

CATS Activity News

Monthly meetings

2007 starts early for CATS with our first meeting of the New Year on **Monday 8th January**, and we start the year with a distinctly non-radio theme. CATS member Steve G3WZK is a fully qualified and licensed teacher of Yoga and has kindly agreed to present an introduction to the subject for us. Steve tells me that he will present the subject in two parts starting with a DVD and slides to introduce the ideas, then, after the tea break, a very gentle practical session. Steve assures me that the exercises for beginners are simple and safe and well within the capabilities of all our members. He can provide a small number of proper Yoga mats but suggests that members might like to bring a blanket or a towel big enough to lie on. Steve also suggests wearing loose clothing and preferably avoiding a heavy meal immediately beforehand.

CATS are venturing into a new and interesting subject here and we look forward to it,

In February we return to matters technical with a talk on the work of the RSGB EMC Committee by Colin G3YCR. Wot's EMC? Come and find out.

For our **March** meeting we are planning to bring all the society –owned kit that we possess (or as much as is practicable) together so that members can see what we have, learn about it and, if they wish, borrow items for testing, experiments or whatever. One big item that we haven't got to grips with yet is the new gazebo and we thought that it might be best to try this out for the first time in a warm, wind-free and brightly lit environment!

CATS New Year Dinner

The CATS dinner to celebrate the New Year and the fact that we managed to survive Christmas, will be held at the *White Hart* at Godstone Green on **Friday 12th January**. Dinner is at **19.00**. for 19.30. 25 members and guests are booked in so far and we hope that our meal will be as successful as last year. There is space for more but you need to contact G7SYO or G8JAC NOW if you want a place. The White Hart offers both a fixed price menu and traditional a la carte and we have previously enjoyed good food and service there.

CATS Weekend?

CATS has, in many years, undertaken a Winter Weekend away to somewhere of interest, often radio-related, and of course, including member's YLs and XYLs to make it a family and social event. Stuart G6CJR is enthusiastic about organising another trip for this winter.

One suggestion of a trip to France, possibly involving a visit to one or two of the WWII related museums around Calais and Boulogne and the other great attractions of cheap shopping and a good meal has been received, but otherwise, the flow of ideas from members has been a little – shall we say - slow. To get this a trip organised Stuart needs to know who in principle is interested in going on a weekend away and of course, your suggestions as to where. Contact him direct or via any committee member.

TransPONDer net news

We have our first TransPONDer net of 2007 coming up on Saturday 6th January and we're calling it the New Year net. Our usual co-ordinator on the US side, Mark W6MY will be unavailable, being inconveniently on a flight to Ohio at the time; however the "other" Mark, KE6ZRP will be standing in and organising contact through the Glendale repeater. We'd like you to join us.

Membership news

We have reached that time of the year when it is necessary to remind all members that their annual subscriptions became due on 1st January of the New Year. The current rules state that subscription for the following year is normally payable at, or at the date of, the Annual General Meeting. A period of two month's grace is allowed for the subscription to be paid but any membership that is not renewed by the 1st of March is considered to have lapsed. A lapsed membership can of course always be renewed but the rules provide for the levy of an additional reinstatement fee on renewal. For those members who could not make it to the AGM, a membership renewal slip is provided below or just print the page whichever is convenient. Please return it to the Hon Treasurer with the appropriate remittance. Cheques made out to Coulsdon Amateur Transmitting Society please.

Harry Bellfield G3SBV - SK

We regret to report the passing of another well-known local amateur – Harry Bellfield G3SBV who became a Silent Key shortly before Christmas after a short battle with cancer. An SRCC and CPREC member, he lived near Streatham Common for many years before retiring to Hythe in Kent where he was very active on the local Hastings repeater. He maintained an active interest in amateur radio until very recently, attending the 2006 HF convention at Gatwick. His funeral was held at St Stephens Church, Lympe.

Contesting reports

M1FUR Active in 144 MHz Contest – Tuesday 5th December 2006

After sending out details of the Tuesday night 144 MHz Activity Contest and Club Championship, I set up my station at ground level. I had set my 7-element "ZL Special" up onto a 12' scaffold pole and the only means of rotating it was to turn it by hand. This meant running out into the garden to change the aerial direction and the best place to set the gear up was in the utility room at the back of the house. At just before 8.00pm I was ready to go.

My activity was as follows:-

	QSOs	Mults	Points
20:00 - 20:59	21	5	21
21:00 - 21:59	12	1	12
22:00 - 22:30	7	1	7

The only other club member that I am aware that took part was Terry G4CDY who got off to a later start than me. *We are reliably informed that Paul M3JXN was also active during the competition – Ed.* This contest scored 1 point per contact and the only multiplier was the locator square.

My Total Claimed Score was 280 points made up of 40 contacts and 7 multipliers. My best DX was MOGHZ in IO81VK, 145 Km away.

I was only sorry that I didn't hear anyone else from the club other than Terry. I was encouraged by the email replies I got but on the night take up was poor. This would have been an excellent opportunity to practice your contest operating, get yourself familiar with the contest software and the exchange of information required. More over, an excellent opportunity to do something as a club!

Andy Briers G0KZT

Also contributed by Andy:

Find your Locator Square

Here's a useful little utility to work out the locator square for any location.

<http://www.g8bcg.org.uk/find-your-locator-map.html>

A map of Europe appears on the screen, which you can zoom in on down to an individual house using Google's excellent satellite mapping pictures. When you left click with the mouse, the latitude and longitude appears along with the locator square. Could be useful if you want to check your square or find someone else's who doesn't know theirs, especially during a contest.

Guides on the air

Our plans to assist the Croydon Guides with their annual "Thinking Day on the Air" event next month are well advanced. For us, it involves setting up and operating a temporary station much as we do for field competitions (although for this event we will be inside in the warm!); for the guides it's an introduction to our technical hobby and the chance to pass messages to other guides around the country and the world.

The date is the weekend of 17/18 February and the location is the Radcliffe centre, Radcliffe Road, Harding Close, Croydon. The operating times are 10.00 to 16.00 GMT both days.

The plan is to run three stations, on 80/40m, 20m and 2m and also to run some radio related background activities such as an introduction to Morse, name spelling using the phonetic alphabet, making jewellery from resistors and setting up a telephone link. A special event callsign – GB4SUN has been applied for.

As well as the adventure of talking on the radio, we hope to get as many Brownies and Guides as possible to qualify for their Communications badge.

Our leader for this activity is Len G0GNQ who is being assisted by Ian M3IGP, Dennis M0DNJ, and Stuart G6CJR. They will welcome further assistance and to make the invitation irresistible, the Guides will be providing lunch and endless tea and coffee. If you can spare a couple of hours to help out, get in touch with Len. Contact details are on page 1 of this newsletter.

Other clubs newsletters

One of the statistics in the secretary's report for 2006 is that 80% of CATS members now receive their copy of *CATS Whispers* and other society information by electronic delivery i.e. email. It shows how we have all so quickly adopted the modern methods of information distribution and also proves that age is nothing to do with it and the idea that "older people can't cope with computers" is patently untrue.

A good number of our members also receive the newsletters of our neighbouring clubs by email, distributed by the secretary. These clubs include SRCC, Wimbledon & District, Crystal Palace, Sutton & Cheam, Reigate, Bromley & district, Mid-Sussex, Crescenta Valley and Crawley.

If you would like to receive other club newsletters just drop an email to the secretary.

Canadian special prefixes

At the request of Radio Amateurs of Canada, Industry Canada has authorized all Canadian radio amateurs to use special event prefixes for the months of December 2006 and January 2007, to mark the 100th anniversary of the first AM voice broadcast by Reginald Fessenden on December 24, 1906. Reginald Fessenden, who was born in East Bolton, Quebec, on October 6, 1866, and lived until July 22, 1932, was the holder of more than 500 patents on a wide variety of subjects, and the inventor of radio as we know it today. He is particularly known for: the first voice transmission by radio in 1900, the first transatlantic two-way radio communications in January 1906, and the first radio broadcasts of entertainment and music in December 1906.

On Christmas Eve, 1906, from a transmitting station in Brant Rock, Massachusetts, he sent a short program, which included the song Holy Night played on the violin and a reading from the Bible. A second short program was broadcast on December 31, 1906.

Canadian radio amateurs are authorized to use the following special event prefixes during the period 1 December 2006 to 31 January 2007

inclusive:

CF for VA stations
CG for VE stations
CH for VO stations
CI0 for VY0 stations
CI1 for VY1 stations
CI2 for VY2 stations.

Thanks to Mike M1CCF for the info – Ed,

Mad Frank's Silly Bitz

Reward

A reward of 50 *MicroFarads* is offered for the capture of *Hoppalong Capacity*, A *North Pole* who escaped from a *Dry Cell* by threatening his warders with a *Carbon Rod*.

He was imprisoned by *Copper Sulphate* for the attempted *Induction* of two sixteen-year-old *Coils*, *Millie Watt* and *Moli Curie*. He was last seen crossing the *Wheatstone Bridge* riding his *Centre Punch* and ringing a *deciBel*.

It is suspected that he is now concealed in a *Magnetic Field* and will offer *Mega Resistance* to anyone attempting to stop him going *Ohm*. Any information please to *Micro Henry* (chip detective).

More from G3ZMF next month.
